

ADDING VIDEO CLIPS

Intro

This tutorial will teach you how to add Video Clips to your service. Some examples of video clips would be dramatized clips for sermons, countdown videos or long play videos (which show well while special numbers are being sung).

Step 1

Click on the **Media** tab.

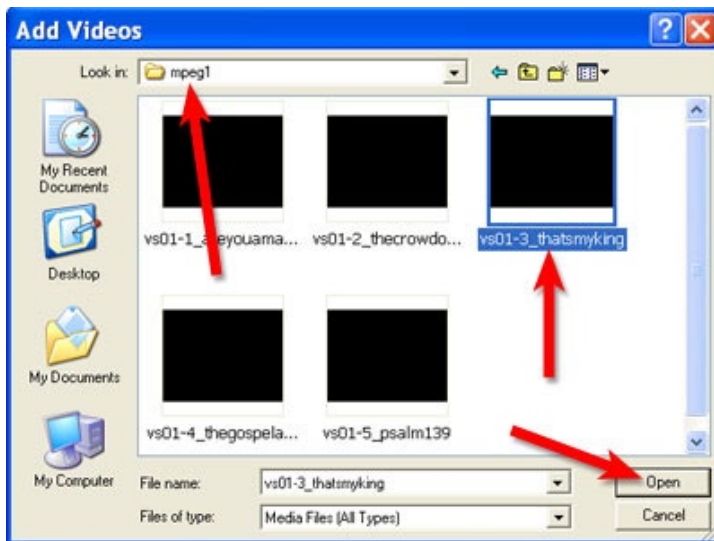

ADDING VIDEO CLIPS

Step 2

Click on the **Add** button at the bottom of the window.

Step 3

Browse to the location for media (similar to other browse steps powerpoint-04-04).

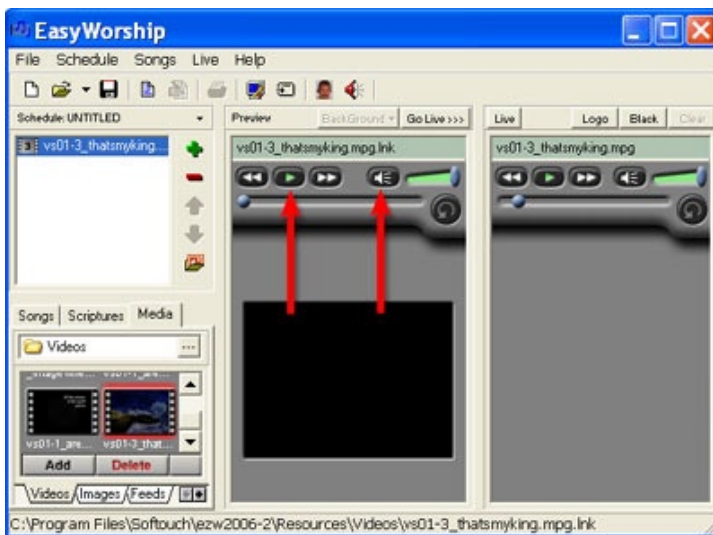

Click **Open** to insert clip into EasyWorship media database.

ADDING VIDEO CLIPS

Step 4

You can now add the video to your schedule or click on it to move to the preview window.

Step 5

In the preview panel you can click on the green 'play' arrow to preview the video.

Note: The sound will be turned off. If you want to hear the sound while in preview mode, simply click on the sound symbol (it looks like a small speaker).

To display the video through the projector, click the **Go Live** button.

ADDING VIDEO CLIPS

Step 6

The video will stop once it reaches the end and hold the last frame which is typically black. If you want the video to loop, you need to click on the **loop video symbol** and it will glow red. This will make the video loop continuously.

Step 7

Congratulations! You have successfully added a video clip to your service.
