

ENABLE DIRECTX FOR MOTION BACKGROUNDS

Intro

When you first install EasyWorship you should ensure the DirectX support is enabled. This will allow you to use motion backgrounds behind your text.

Step 1

Using the **Live** drop down menu, click on **Options**.

ENABLE DIRECTX FOR MOTION BACKGROUNDS

Step 2

Check to see if the **Enable DirectX Support** box is checked.

Step 3

Check (click on) the **Enable DirectX Support** box to complete this tutorial.
